Fullstack engineer with 10+ years of experience looking to work on complex UIs and impactful products. Seeking remote or hybrid roles based in New York City, NY

WORK EXPERIENCE

Senior Software Engineer (Full-stack)
Sep 2018 - Sep 2025

Lyft - San Francisco, CA | New York City, NY

- Frontend Lead for Lyft Business Concierge Modes & Riders team.
- Owned 2 rider facing webapps and contributed to backend services enabling over 1M rides/week
- Architected and built features using Next.js, Typescript, GraphQL, Python, Cypress
- Drove frontend performance initiatives to improve Web Vitals by introducing bundling strategies, cutting page load time 60%, and reducing layout shifts by collaborating with design on loading states and animations.
- Saved $500k/year by migrating off of Google Maps and helping to create a centralized Lyft Maps frontend library to be used across the company
- Organized and MC'd monthly Frontend All Hands, delivering tech talks to 100+ engineers on topics such as Typescript adoption, user agent sniffing and IE11 deprecation, and the latest in bundling technology
- Maintained company-wide e2e testing library and contributed to component libraries, reducing duplicated effort across teams and improving webapp reliability and reporting.
- Mentored and guided 4 junior engineers, 3 promoted within 2 years
- Led team on-call reviews, improving operational excellence and error rates week over week

Software Engineer Intern
Aug 2017 - Dec 2017

Amazon - Seattle, WA

- Added features to internal pricing web applications enabling viewing of historical data and generation of diff snapshots on demand- React.js, ES6, Redux, Webpack, Sass, and Java Spring

Software Engineer Intern
May 2017 - Aug 2017

Snap - Venice Beach, CA

- Rewrote scan.snapchat.com from the ground up, improving maintainability and extensibility, using Javascript, React, Redux, and Java

Software Engineer Intern
May 2016 - Aug 2016

SpaceX - Hawthorne, CA

- Built internal web tools on the Enterprise Information Systems team using .NET, Angular.js, and TypeScript
